

GatesFree

The))GatesFree((effort is all about opening up the Internet and computer use to the people. There are a number of parts to this project. Here is a brief outline.

We Are GatesFree!

Make-The-Change!

- Computers & Hardware
- Software & operating systems
- Internet access
- Web space availability
- Web Mail

Each of these areas offer unique problems that can be solved at a reasonable cost. With a little bit of community help and cooperation we can open the world of the computer to those that think they can not afford it.

Please fix this it you wish

[Damian](#) says woohoo: finally we no longer have to care about IE! 😄😄😄
