Some notes

- Please try to use a non-proprietary software such as [InkScape](#), which is free, GPL licensed vector graphics editor
- If you can't/don't want to use it than save and publish your work in a format that other softwares can read as well
- The below designs have been made with InkScape and saved in svg format
- Share your work! Upload the source files to file galleries!
- If you modify an svg and upload it please increase the serial at the end of the filename by +1

Tiki 3D box

What is it?

- Tiki is a product and it is common on the web for softwares to have a box picto that looks like something you can take off the shelf in a shop
- we should have it to promote better the "out-of-the-box" message
- [see more here](#)
