ReleaseNotes177

Tiki 1.7.7 is available since 2004-05-16.

1.7.7 backports some security problems addressed in Tikiwiki 1.8.2, mainly Path Disclosure, XSS and improved CSRF routines (thanks to http://gulftech.org). It is offered for Eta Carinae Tikis that don't want to go to Polaris.

Damian Parker was the coordinator of this release.
