When

23rd to 29th of August 2016

What

Meetup with old and new friends of the Tiki Community, work together on Tiki marketing and branding (and possibly some bugfixing, yay!) and have a great time in one of the most famous cities of Europe.

What to bring

For yourself

- laptop and power cord
 - what kind of power plugs Hungary uses? same as all participants:
<http://www.worldstandards.eu/electricity/spread-plug-types-map/>
 - gezza: C, F, E are all good, should be the same as in Brussels
- do we need a swimming suit? 
 - gezza: definetly yes! there are many famous public baths in Budapest!

Equipment for the TikiFest

what	who
Tiki Banner	Torsten
Plastic posters	Jyhem
t-shirts	luci (some left-overs after TikiFestCEST)
Power cords and multiple plugs	

What we are missing actually

- Whiteboard
- HDMI cable

Money

In Hungary they use Hungarian Forints there:

1.00 USD = 280.809 HUF

1.00 EUR = 311.039 HUF

Make your own approximate conversion here:

Maps and Address

There is a 2 bedroom + living room apartment with 3 double beds (6 persons) available for free in the city center. It should be reserved and paid using Airbnb, but I will refund the whole amount.

Additional accommodation can be arranged, but it will cost money.

Travel (long distance / local)

By plane: Liszt Ferenc Airport: pick a taxi (should costs you max 30 EUR) or an airport shuttle (<http://bud.hu>)

By train: Keleti train station - take the Red metro line (M2) until "Deák Ferenc tér" station. From there the apartment is about 5 minutes walk.

By car:

- ~~luci is offering shared car ride (max +3 persons, to keep it comfortable) if any of the participants stops by or comes to his place—otherwise, luci will go by train~~
- **gezza**: are there any free parking possibilities nearby the place of the TikiFest location?
 - **lucias d' being** : No free parking near the apartment. You can park on the street, but you have to pay 440 HUF/Hour (around 1,3EUR) or you can you use a parking company garage in a nearby street (<http://www.ezparkbudapest.com/parking/opera-parking>). Another option is that we park your

car a bit further at a free space, than take my car to go to the apartment.

- [gezza](#): thanks, I will go by train then probably as it seems

Who

status: **confirmed**, **interested**, **remote**

Agenda

There are some open co-working spaces near the accommodation

- Brainstorming
- Add-ons?
- Git(Hub)? Probably Sf.net GIT first - <https://dev.tiki.org/What+ToDo+When+Migrating+To+Git>
- Translations and Transifex
- Bugfixing
- Improve marketing
- Improve setup.sh to support custom versions of PHP cli (like setup path variable for php56)
- Choose a "card layout in grid" lib for Tiki? (See <https://dev.tiki.org/Grid>)

Day	Morning	Afternoon
Wednesday	Planning	Git (Office) https://dev.tiki.org/What+ToDo+When+Migrating+To+Git
Thursday	Marketing (Office)	Security (Office)
Friday	Transifex (CoWorking space)	MeetUp , Tagline shortlist , Tiki cube
Saturday	Sight Seeing	Sight Seeing
Sunday	Bathing	Bathing, Group Picture

Summary

The first ever TikiFest in Hungary took place in Budapest at the end of August with lots of good food, beer, sightseeing and of course a little bit of Tiki work focusing on git, marketing, security and [transifex translations](#).

Results

Some of the results:

- git workflow proposal: <https://dev.tiki.org/Git+Workflow>
- product name proposal: Tiki CMS 
- the proposed colorful Tiki cube: 
- new command-line option for setup.sh for different php version

The crew spent quite some time in the famous bath relaxing and trying to come up with a smart, attractive tagline with little success, the proposal list just got even longer

Also the first [Tiki Budapest Meetup](#) took place!

See you next year!
