UserPagecbarbry

Hey!

Not much here.

I'm a Network Administrator for an accounting firm in Arkansas. I've been looking at Tiki to use in our firm and/or to setup for clients. I just started messing with Tiki, and already have one client that is going to be using it.

As a network admin, I'm not much of a coder. So, I plan to help out with the admin documentation side of things.

You can catch me on Jabber - cbarbry@jabber.org. Or you might occasionally catch me on the #tikiwiki IRC channel logged in as WhiteBoy.

Well, guess that's about it for now.
