ATTENTION 1: This page has been translated into Portuguese language. See the language pop-up menu at the top right of this page. Please help us to maintain this page updated in both English and Portuguese languages.

ATTENTION 2: The event **will** happen but the date needs to be determined.

What

A tradition in the Tiki community, a TikiFest is a meeting between Tiki community members (that usually only meet online). This is an opportunity to socialize, code and discuss about wiki technology and culture, etc.

When

End of June, probably from 2011-06-21 to 2011-06-27, to be able to participate on [FISL](#) (a big free software event in Porto Alegre, Brazil). Next FISL will be from 2011-06-29 to 2011-07-02. We would apply to have a talk about Tiki and a booth at the event.

Where

We have discussed two different options. We can do one or both.

- Host the event in a big city (São Paulo, Rio de Janeiro or Porto Alegre). Better for networking with Brazilian free software enthusiasts and better internet connection meaning that will be easier to host conferences with others that can't come to the TikiFest but want to participate.
- Go to a smaller city in the coast near a beautiful beach. Better to enjoy the best of Brazil (big cities are almost the same everywhere in the world) and to focus on specific Tiki tasks with the attendants of the event.

More on the different location options:

- Rio de Janeiro ([map](#)):
 - Big city, probably Brazilian second economic center, and beautiful at the same time (in the coast) 😊
 - Rodrigo is living in Rio now so it is easier for him to organize a TikiFest there (or in São Paulo)
- Porto Alegre ([map](#)):
 - FISL happens in Porto Alegre

Accommodation

The plan is to rent a TikiHouse.

Who

Please fulfill the board below to help us to better understand visitor needs and expectations

Confirmed

Name	home city	Arrival Date
Rodrigo Sampaio	Rio de Janeiro	
Wallace Goulart (wggley)	Rio de Janeiro	

Arrival Time	Departure Date	Departure Time
